

There is no need to move to an institutionalized setting, we can provide you with a complete set of caring hands and services right in the comfort of your abode!

Aging does not have to be a difficult process. As experts, we understand that growing old has its limitations. Performing even just the simplest routines such as bathing, transferring, eating or walking, may prove harder to do than your earlier years.

However, if you have professionals to guide you through the stage, you can treasure and revel each day and there is nothing to be anxious about.

Caring for you at home promotes your independence and nurtures your needs. Trust in our commitment, absolutely everything will be well taken care of by our gentle expertise.

All our employees are professionals in their field. Placing their best interests in accordance to your health's, you can look to them for any doubts on health.

At At-HomeCare of CT, LLC you can always rest assured that trained, ethical and loving caregivers are looking after you.

Our Core Values:

- ★ Honesty
- ★ Compassion
- ★ Dignity
- ★ Respect
- ★ Commitment
- ★ Accountability

Highly-qualified Caregivers:

- ★ Thoroughly screened and reference checked
- ★ Rich with experience in the healthcare field

- ★ Caring, compassionate and skilled
- ★ Bonded and Insured
- ★ Available 24 hours a day or intermittently

Choosing our caregivers is a very thorough and careful process.

Step 1.

We first screen our applicants based on experience, background, personality, skills and work ethics, making sure to select only the very best and most qualified - this ensures that each respective caregiver suits the position and matches the level of standard we look for.

Step 2.

In our initial first home visit, we will give you profiles of each staff member. You will have the option to choose the caregiver of your preference based on their credentials.

Step 3.

Once you pick the individual whom you think

is best, we will have him/her visit your home for further evaluation, and arrange a plan of care along with your assigned physician.

Step 4.

Within the entire caregiving process, you will always have the option to choose another caregiver if the current one assigned, you may realize, you find uncomfortable with, or does not match your needs.

Step 5.

We will monitor your home care process and experience by making regular calls and check-ups to you and the caregiver. This is essential for service enhancements, changes as well as feedback.

We continuously train our caregivers so they may live up to service standards, advancing along the demands of society's needs for care and staying up-to-date with industry developments.
